

# Install Microsoft Azure Remote Desktop Client

Follow the steps below to install and Access Azure-based Remote Desktop services.

- 1 Open a browser window and navigate to: <https://learn.microsoft.com/en-us/azure/virtual-desktop/users/connect-windows?pivots=remote-desktop-msi>

- 2 Scroll down the page and find then click "Windows 64-bit" link to start the download.

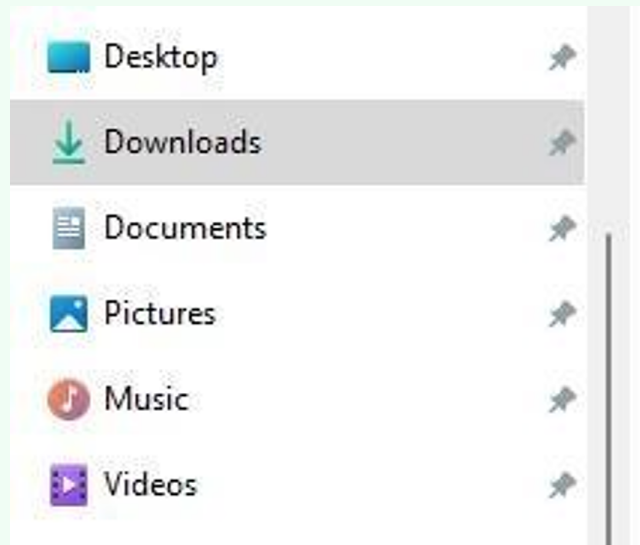

## Desktop client (MSI)

Here's how to install the Remote Desktop client for Windows using the MSI installer. If you want to deploy the Remote Desktop client in an enterprise, you can use `msiexec` from the command line to install the MSI file. For more information, see [Enterprise deployment](#).

1. Download the Remote Desktop client installer, choosing the correct version for your device:
  - [Windows 64-bit](#)  (most common)
  - [Windows 32-bit](#) 
  - [Windows ARM64](#) 
2. Run the installer by double-clicking the file you downloaded.
3. On the welcome screen, select **Next**.
4. To accept the end-user license agreement, check the box for **I accept the terms in the License Agreement**, then select **Next**.
5. For the Installation Scope, select one of the following options:

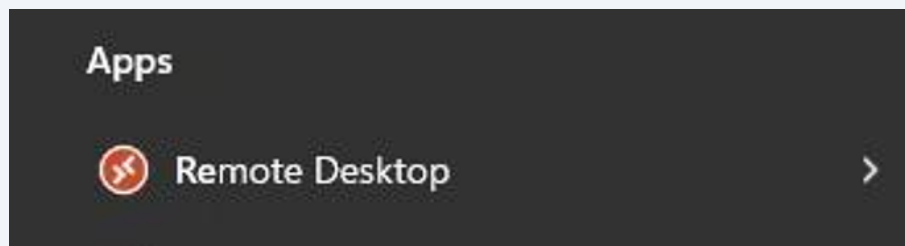

If you have closed your browser, you can find the file you downloaded in your **Downloads** folder.

3

Install the remote desktop client by launching the downloaded file. Upon completion, you will have a Remote Desktop application in your Start Menu application list.

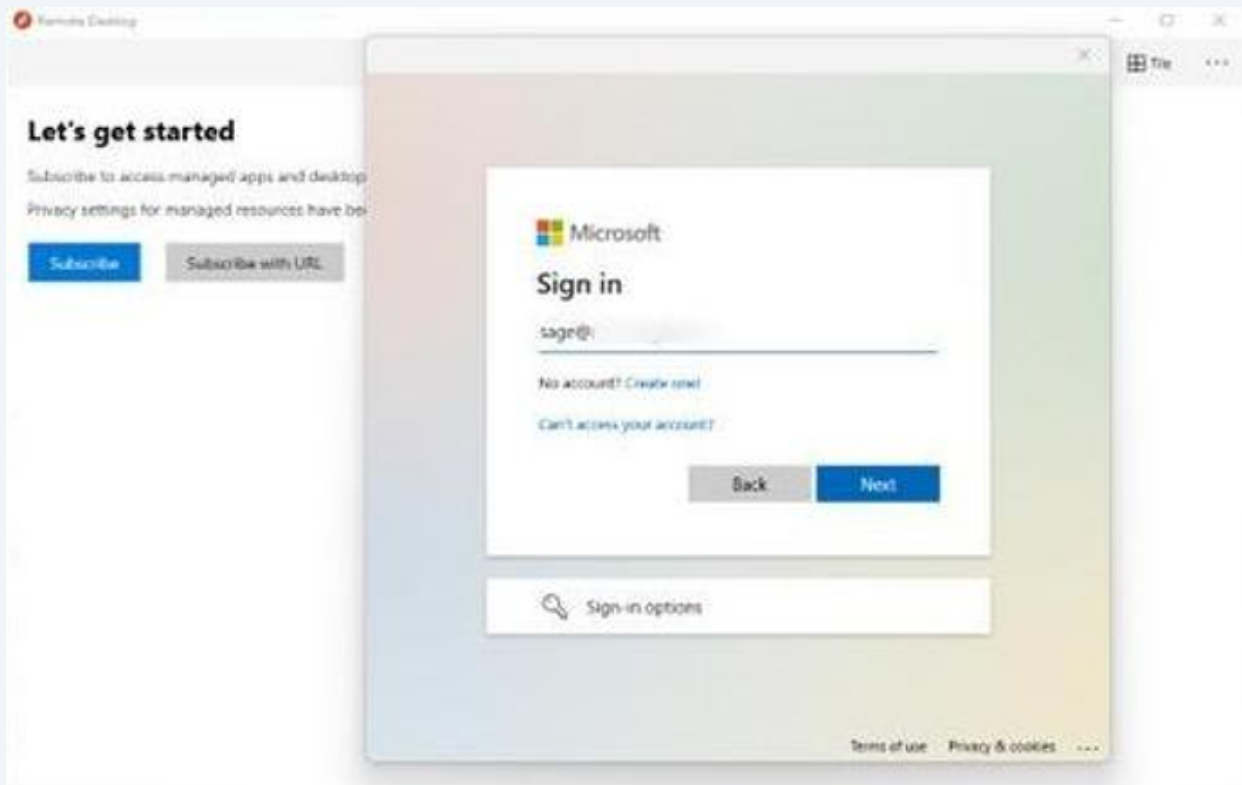

4

Launch the Remote Desktop application from the start menu.

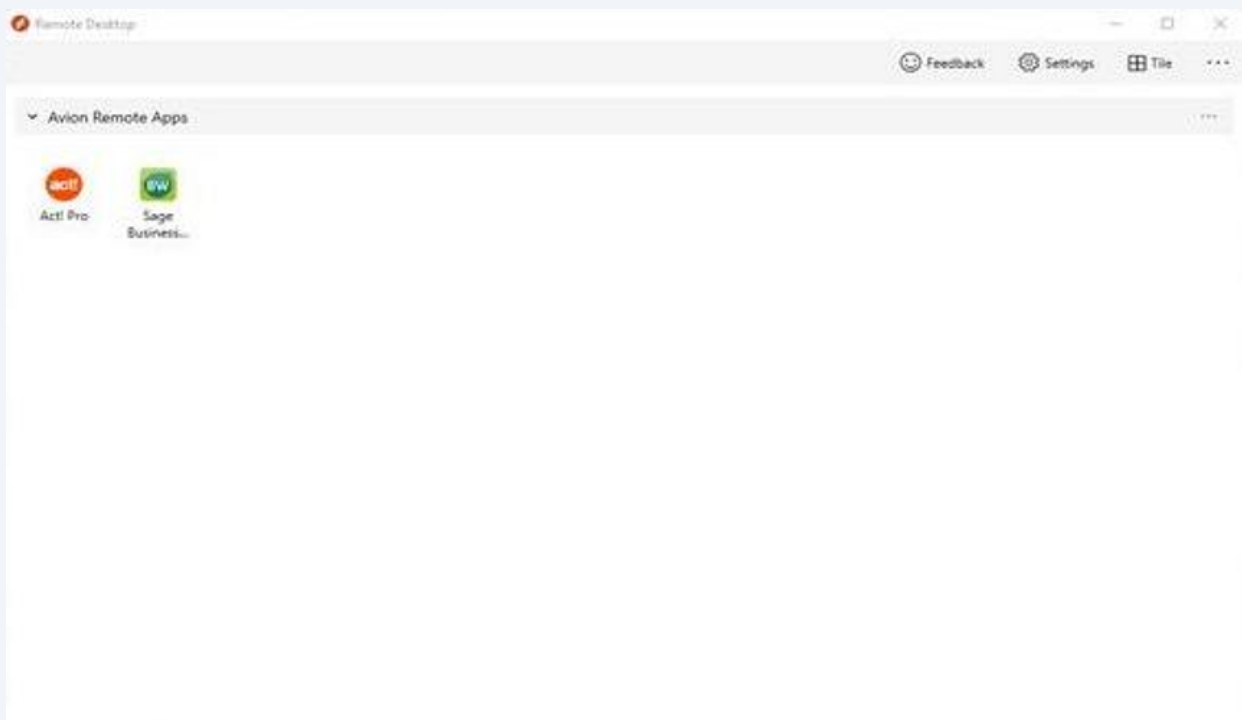

5

After the application opens, click the blue Subscribe button and then sign in with your Microsoft 365 account.

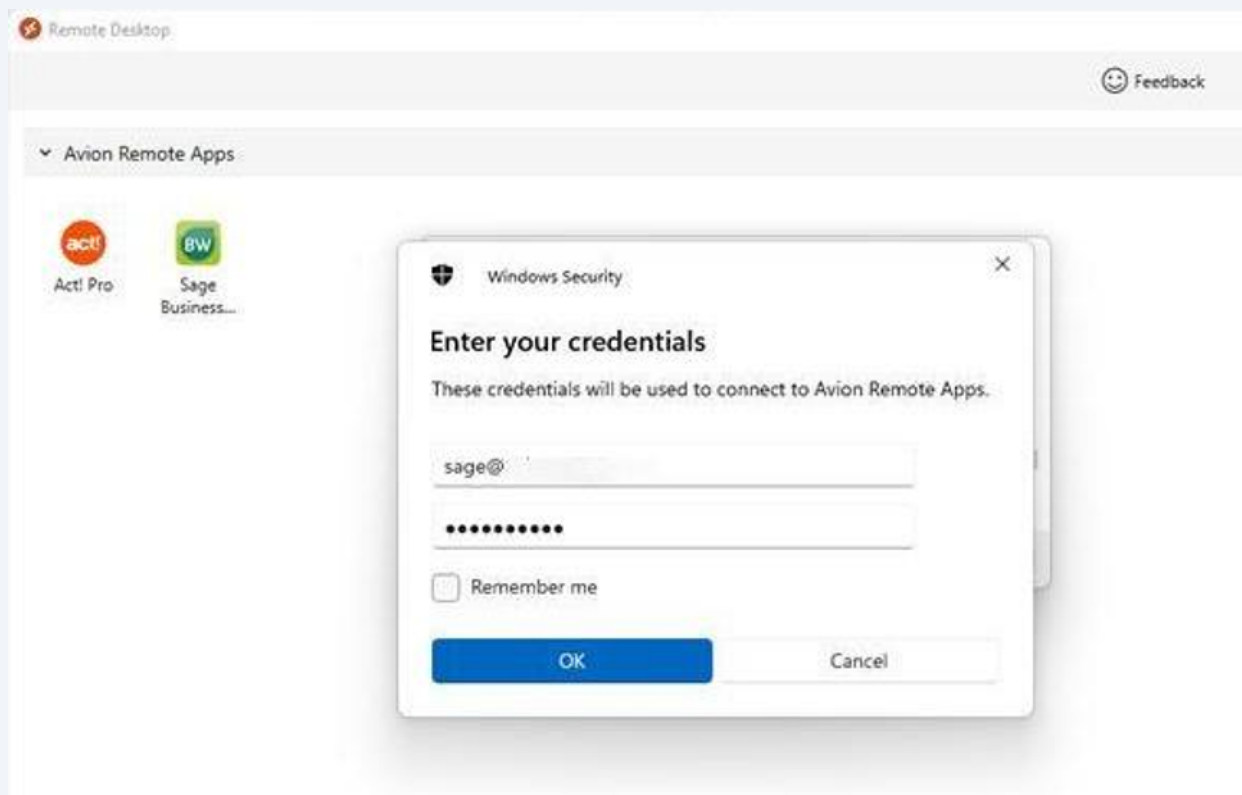

6

After you have signed in, you will see your desktop/applications in the list. *(Please note, you will see the applications particular to your company environment).*

- 7 Double-click to launch the application/desktop. You will be prompted for your local computer's password or Windows Hello PIN if set up.

- 8 After logging in, the application/desktop will begin to connect, and you will be dropped into the application or remote desktop.
